**Letter of Support**

Mangrove Foundation endorses the initiative led by the Let's Do It India (LDII) Foundation of the World Clean-up Day movement. Mangrove Foundation works precisely for the conservation and protection of mangroves and the solid waste that gets trapped in mangroves is one of the biggest challenges faced. To address this issue, Mangrove Foundation is already working with eight Non-Profit Organizations wherein, support is provided to these NGOs to organize clean-up drives twice every month.

Mangrove Foundation along with our clean-up partner NGOs namely, With Them For Them, Beach Please, Nirdhar Foundation, Luna Story Foundation, For Future India, Swachha Vasundhara Abhiyan, Mangrove Soldier, and Vanashakti would participate in the World clean-up day on September 17<sup>th</sup>, 2022.

We look forward to participating alongside you all, nationally, on this forthcoming World Clean-up Day on 17<sup>th</sup> September 2022.

Further, I hereby confirm to be a knowledge partner of Let's Do It India Foundation, New Delhi for this event.
